

TVSEF Research Performed in an Institutional/Industrial Setting (TVSEF-1D)

This form must be completed by the scientist supervising the student research conducted in a regulated research institution or industrial setting.

(e.g., university, lab, medical center, NIH, SSTP, etc.)

This form **MUST** be available with your project at the TVSEF.

Student's Name _____

Title of Project _____

To be completed by the scientist (NOT the student or adult sponsor) after experimentation:

The student conducted research at my institution: (check one)

☐

only to use the equipment

☐

to perform experiment(s)

1) How did the student get the idea for his/her project?

Was the project assigned, was it picked from a list of possible research topics, did it come out of discussion with a scientist, did it arise from some work in which the student was engaged, or did the student suggest it?

2) Were you made aware of the TVSEF Rules before experimentation?

☐

Yes

☐

No

3) Did the student work on the project as part of a team or a group?

☐

Yes

☐

No

If **yes**, how large was the team, what kind of a team was it (students, group of adult researchers, etc.) and what was the student's role on the team?

4) What specific procedures did the student actually perform and how independently did the student work?

What parts did the student do on his/her own and what parts did he/she receive help with (the experimental design, choice of techniques, use of special instruments or equipment, construction of equipment, gathering data, evaluation of data, arriving at conclusions, etc.)? Do not list procedures student only observed.

Student research projects dealing with human subjects, vertebrate animals or rDNA in a regulated research institution/industrial setting require review and approval by your institutional regulatory board (IRB/IACUC). Copy of approval(s) must be attached.
